THE HEALING PROPERTIES OF WATER

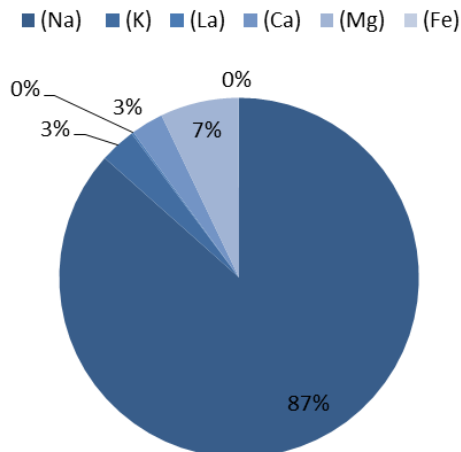

JAN

Jan is natural healing water – very diuretic, ideal in healing kidney stones. It is also used in treating other kidney and urinary ducts illnesses as well as in curing atherosclerosis and diabetes (in combination with Zuber) because it considerably lowers the level of cholesterol and sugar.

ZUBER

Zuber – is unique healing water in the scale of Europe. It is also highly mineralized. Zuber is used healing gastric and duodenal ulcers. Drinking it is good for the liver and the biliary ducts. The water prevents hyperacidity and lowers the level of sugar and cholesterol in the blood.

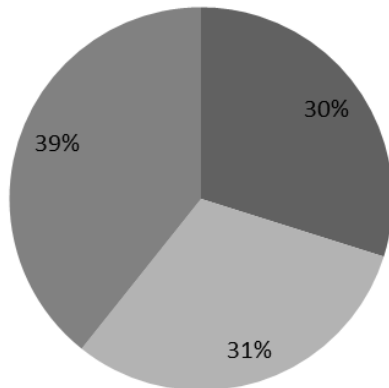

SŁOTWINKA

Słotwinka- is mineral water effective in healing chronic catarrhal inflammations of digestive system, illnesses caused by magnesium deficiency, and neurological problems. It is anti-allergic and helps to remove heavy metals from the organism.
